

A diagram consisting of several purple and pink circular nodes connected by thin lines. The nodes are arranged in a somewhat circular pattern around the first part of the code, with lines connecting them to specific keywords and symbols.

```
public class [ac] Keyword SignChecker {  
    private int number;  
  
    public SignChecker(int currentNumber) {  
        number = currentNumber;  
    }  
}
```

A diagram consisting of several orange and yellow circular nodes connected by thin lines. The nodes are arranged in a somewhat circular pattern around the second part of the code, with lines connecting them to specific keywords and symbols.

```
    public String check() {  
        String theSign = "";  
        if (number < 0) {  
            theSign = "negative";  
        } else if (number > 0) {  
            theSign = "positive";  
        } else {  
            theSign = "null";  
        }  
        return theSign;  
    }  
}
```
