

```
public static boolean checkIfLettersOnly(String stringToTest) {  
    char ch;  
    int i = 0;  
    while (i < stringToTest.length()) {  
        ch = stringToTest.charAt(i);  
        if (!(ch >= 'a' && ch <= 'z') && !(ch >= 'A' && ch <= 'Z'))  
            return false;  
        i++;  
    }  
    return true;  
}
```

The image shows a network diagram with various colored nodes (purple, yellow, orange, red) and connecting lines (purple, yellow, orange, red) overlaid on the code. The nodes are distributed across the code, with some nodes connected to multiple lines of code. The lines represent connections between the nodes, forming a complex network structure.
